| Species Reactivity         | Virus                                                                                                                                                                                                                                                         |
| Conjugation                | Unconjugated                                                                                                                                                                                                                                                  |
| Product Description        | EBNA-3B is one of only 10 viral proteins expressed in EBV-transformed B lymphoblasts cultured in vitro, through the expression of EBNA 3B is not required for EBV-mediated transformation in vitro. This 165kDa nuclear protein functions as a transcripti... |
| Concentration              | See vial for concentration                                                                                                                                                                                                                                    |
| Isotype                    | IgG                                                                                                                                                                                                                                                           |
| UniProt                    | <a href="#">P03203</a>                                                                                                                                                                                                                                        |
| Buffer                     | Provided as solution in phosphate buffered saline with 0.08% sodium azide                                                                                                                                                                                     |
| Source                     | Sheep were immunized with recombinant EBNA-3B protein                                                                                                                                                                                                         |

|                   |                                                                           |
|-------------------|---------------------------------------------------------------------------|
| Purity            | Ammonium sulfate precipitation                                            |
| Form              | Unconjugated                                                              |
| Formula           | Provided as solution in phosphate buffered saline with 0.08% sodium azide |
| Application Notes | Western blotting at 1-5 µg/ml                                             |
