Product Datasheet

Tiam 1 (Catalytic domain/ C-terminal domain), Clone: [Polyclonal], Rabbit, Monoclonal NMB-MUB1807P

Article Name	Tiam 1 (Catalytic domain/ C-terminal domain), Clone: [Polyclonal], Rabbit, Monoclonal
Biozol Catalog Number	NMB-MUB1807P
Supplier Catalog Number	MUB1807P
Alternative Catalog Number	NMB-MUB1807P
Manufacturer	NordicMubio
Host	Rabbit
Category	Antikörper
Application	ICC, IHC, IP, WB
Species Reactivity	Human, Mouse
Product Description	Directional cell migration is essential for various physiological processes such as embryonic development, angiogenesis, wound healing, and tumor invasion. In response to extracellular and cell adhesion signals, cells acquire a polarized morphology w...
Clonality	Monoclonal
Clone Designation	[Polyclonal]
UniProt	Q13009
Buffer	Each vial contains 100 µl rabbit antiserum containing 0.09% sodium azide.

Source	Human Tiam1 (catalytic domain/ C-terminal domain) is an affinity purified rabbit polyclonal antiserum derived by injection of rabbits with a GST fusion protein with the C-terminal amino acids 904-1511 of Tiam 1.
Formula	Each vial contains 100 µl rabbit antiserum containing 0.09% sodium azide.
Application Notes	Human Tiam-1 (catalytic domain/ C-terminal domain) is suitable for immunoblotting, immunocytochemistry, and immunohistochemistry on frozen and paraffin-embedded tissues. Optimal antibody dilution should be determined by titration, recommended range is 1:100 - 1:200 for immunohistochemistry with avidin-biotinylated horseradish peroxidase complex (ABC) as detection reagent, and 1:100 - 1:1000 for immunoblotting applications.
