Goat anti Guinea Pig C3c, conjugated with FITC, Clone: [Polyclonal], Monoclonal NMB-GAGP/C3C/FITC

Article Name	Goat anti Guinea Pig C3c, conjugated with FITC, Clone: [Polyclonal], Monoclonal
Biozol Catalog Number	NMB-GAGP/C3C/FITC
Supplier Catalog Number	GAGp/C3c/FITC
Alternative Catalog Number	NMB-GAGP/C3C/FITC
Manufacturer	NordicMubio
Host	Goat
Category	Antikörper
Conjugation	FITC
Product Description	In immunoelectrophoresis against fresh guinea pig serum, a single precipitin line is obtained in the beta-1 region representing native C3. Against serum containing partly activated C3, a precipitin line is obtained which extends from the beta-1 into ...
Clonality	Monoclonal
Clone Designation	[Polyclonal]
Buffer	Fluorochrome-coupled purified hyperimmune IgG lyophilized from a solution in phosphate buffered saline (PBS, pH 7.2) No preservative added, as it may interfere with the antibody activity. It is reconstituted by adding 1 ml sterile distilled water, spun do

Source	C3 is the most abundant complement protein in guinea pig serum. Its biological function strongly resembles that of C3 in man and other laboratory animal species. It has a central role in the activation system being common to both pathways. Activation of C3
Form	FITC
Formula	Fluorochrome-coupled purified hyperimmune IgG lyophilized from a solution in phosphate buffered saline (PBS, pH 7.2) No preservative added, as it may interfere with the antibody activity.
Application Notes	ELISA, Immunocytochemistry, Immunohistochemistry (frozen), (In)direct immunofluorescence.
