Product Datasheet

Goat IgG, conjugated with Horseradish peroxidase, HRP NMB-GIGG/PO

Article Name	Goat IgG, conjugated with Horseradish peroxidase, HRP
Biozol Catalog Number	NMB-GIGG/PO
Supplier Catalog Number	GlgG/PO
Alternative Catalog Number	NMB-GIGG/PO
Manufacturer	NordicMubio
Host	Goat
Category	Antikörper
Conjugation	HRP
Product Description	As a substitute for a non-relevant antibody, labelled with peroxidase or an alternative for the goat PAP complex....
Buffer	Horseradish peroxidase coupled purified goat IgG in phosphate buffered saline (pH7.2). No preservative added
Form	HRP
Formula	Horseradish peroxidase coupled purified goat IgG in phosphate buffered saline (pH7.2). No preservative added

Application Notes

ELISA, Immunocytochemistry, Immunohistochemistry (paraffin), Dot blot, Immunoblotting. The conjugate is shipped at ambient temperature and may be stored at +4C, prolonged storage at -20C. Reconstitute the lyophilized antiserum by adding 1 ml sterile distilled water. Spin down to remove insoluble particles, divide into small aliquots, and store frozen at or below -20C. Prior to use an aliquot is thawed at ambient temperature, spun down again, and used to prepare working dilutions by adding sterile PBS pH7.2). Repeated thawing and freezing should be avoided. If a slight precipitation occurs upon storage, this should be removed by centrifugation. It will not affect the performance of the conjugate. Diluted conjugate should be stored at +4C, not refrozen, and preferably used the same day.
