Product Datasheet

Rabbit anti Dog albumin, Clone: [Polyclonal], Monoclonal NMB-RAD/ALB

Article Name	Rabbit anti Dog albumin, Clone: [Polyclonal], Monoclonal
Biozol Catalog Number	NMB-RAD/ALB
Supplier Catalog Number	RAD/Alb
Alternative Catalog Number	NMB-RAD/ALB
Manufacturer	NordicMubio
Host	Rabbit
Category	Antikörper
Product Description	The defined antibody specificity is directed to albumin as tested against dog sera. In immunoelectrophoresis and double radial immunodiffusion (Ouchterlony), using various antiserum concentrations against appropriate concentrations of the immunogen, ...
Clonality	Monoclonal
Clone Designation	[Polyclonal]
Buffer	Delipidated, heat inactivated, lyophilized, stable whole antiserum. No preservative added. Total protein and IgG concentrations in the antiserum are comparable to those in pooled rabbit serum. No foreign proteins added. Reconstitute the lyophilized antise
Source	Highly purified albumin isolated from dog serum. Freund's complete adjuvant is used in the first step of the immunization procedure.

Formula	Delipidated, heat inactivated, lyophilized, stable whole antiserum. No preservative added. Total protein and IgG concentrations in the antiserum are comparable to those in pooled rabbit serum. No foreign proteins added.
Application Notes	Precipitation assays. In immunoelectrophoresis use 2 μ l serum, plasma or equivalent against 120 μ l antiserum. In double radial immunodiffusion (Ouchterlony) use a rosette arrangement with 10 μ l antiserum in a 3 mm diameter centre well and 2 μ l serum samples (neat and serially diluted) in 2 mm diameter peripheral wells. In single radial immunodiffusion and electroimmunodiffusion use 0.5 to 1.0 percent antiserum in the agar gel.
