## Product Datasheet

### Rabbit anti Mouse IgM (Fc specific), Clone: [Polyclonal], Monoclonal NMB-RAM/IGM(FC)

Article Name	Rabbit anti Mouse IgM (Fc specific), Clone: [Polyclonal], Monoclonal
Biozol Catalog Number	NMB-RAM/IGM(FC)
Supplier Catalog Number	RAM/IgM(Fc)
Alternative Catalog Number	NMB-RAM/IGM(FC)
Manufacturer	NordicMubio
Host	Rabbit
Category	Antikörper
Species Reactivity	Mouse
Conjugation	Unconjugated
Format	Antiserum
Target Specificity	IgM ( $\mu$ )
Cross-Adsorption (MinX)	no cross-adsorbtion
Product Description	The reactivity of the antiserum is restricted to the Fc part of the IgM molecule. In immunoelectrophoresis and radial immunodiffusion, using various antiserum concentrations against normal mouse serum a single precipitin line is obtained which shows ...
Clonality	Monoclonal
Clone Designation	[Polyclonal]

Buffer	Delipidated, heat inactivated, lyophilized, stable whole antiserum No preservative added Total protein and IgG concentrations in the antiserum are comparable to those of pooled normal rabbit serum. No foreign proteins added. Reconstitute the lyophilized a
Source	Highly purified homogenous IgM isolated from mouse serum. Freund's complete adjuvant is used in the first step of the immunization procedure.
Formula	Delipidated, heat inactivated, lyophilized, stable whole antiserum No preservative added Total protein and IgG concentrations in the antiserum are comparable to those of pooled normal rabbit serum. No foreign proteins added.
Antibody Type	Secondary Antibody
Application Notes	Precipitation assays. In immunoelectrophoresis use 2 $\mu$ l serum or equivalent against 120 $\mu$ l antiserum In double radial immunodiffusion use a rosette arrangement with 10 $\mu$ l antiserum in 3 mm diameter centre well and 2 $\mu$ l serum samples (neat and serially diluted) in 2 mm diameter peripheral wells.
