## Product Datasheet

### Rabbit anti Rat IgM (Fc specific), Clone: [Polyclonal], Monoclonal NMB-RARA/IGM(FC)

Article Name	Rabbit anti Rat IgM (Fc specific), Clone: [Polyclonal], Monoclonal
Biozol Catalog Number	NMB-RARA/IGM(FC)
Supplier Catalog Number	RARa/IgM(Fc)
Alternative Catalog Number	NMB-RARA/IGM(FC)
Manufacturer	NordicMubio
Host	Rabbit
Category	Antikörper
Species Reactivity	Rat
Conjugation	Unconjugated
Format	Antiserum
Target Specificity	IgM ( $\mu$ )
Cross-Adsorption (MinX)	no cross-adsorbtion
Product Description	The reactivity of the antiserum is restricted to the Fc part of the IgM molecule. In immunoelectrophoresis and radial immunodiffusion, using various antiserum concentrations against normal rat serum a single precipitin line is obtained which shows a ...
Clonality	Monoclonal
Clone Designation	[Polyclonal]

Buffer	Delipidated, heat inactivated, lyophilized, stable whole antiserum. No preservative added. Total protein and IgG concentrations in the antiserum are comparable to those of pooled normal rabbit serum. No foreign proteins added. Reconstitute the lyophilized
Source	Highly purified homogenous IgM isolated from rat serum. Freund's complete adjuvant is used in the first step of the immunization procedure.
Formula	Delipidated, heat inactivated, lyophilized, stable whole antiserum. No preservative added. Total protein and IgG concentrations in the antiserum are comparable to those of pooled normal rabbit serum. No foreign proteins added.
Antibody Type	Secondary Antibody
Application Notes	Precipitation assays. In immunoelectrophoresis use 2 $\mu$ l serum or equivalent against 120 $\mu$ l antiserum In double radial immunodiffusion use a rosette arrangement with 10 $\mu$ l antiserum in 3 mm diameter centre well and 2 $\mu$ l serum samples (neat and serially diluted) in 2 mm diameter peripheral wells.
