| Product Description        | The clone DF1513, a mouse monoclonal antibody recognizes the human CD71 cell surface antigen, a ~190 kDa homodimeric glycoprotein expressed by proliferating cells. CD71 antibody selectively binds to earliest erythroid precursors, proliferating cells,... |
| Clonality                  | Monoclonal                                                                                                                                                                                                                                                    |
| Clone Designation          | [DF1513]                                                                                                                                                                                                                                                      |
