| Manufacturer               | Enzo Life Sciences                                                                                                             |
| Category                   | Biochemikalien                                                                                                                 |
| Product Description        | Cell permeable non-tubulin-interacting mitosis inhibitor. Blocks mitosis (IC50=14µM) by binding to the mitotic kinesin Eg5.... |
| Molecular Weight           | 292.4                                                                                                                          |
| Purity                     | 98% (TLC)                                                                                                                      |
| CAS Number                 | [329689-23-8]                                                                                                                  |
| Formula                    | C14H16N2O3S                                                                                                                    |
| Target                     | Mitotic kinesin Eg5                                                                                                            |
