| Manufacturer               | Enzo Life Sciences                                                                                                                                |
| Category                   | Biochemikalien                                                                                                                                    |
| Product Description        | A potent substrate analog inhibitor of snake venom PLA2 (IC50=2 µM). It inhibits human recombinant sPLA2 (IC50=0.9 µM) selectively over cPLA2.... |
| Molecular Weight           | 735.6                                                                                                                                             |
| Purity                     | 98% (TLC)                                                                                                                                         |
| CAS Number                 | [116457-99-9]                                                                                                                                     |
| Formula                    | C40H83N2O5PS                                                                                                                                      |
| Target                     | PLA2 (secretory)                                                                                                                                  |
