| Article Name               | Anti-Human FGF-10 Antibody, Goat, Polyclonal                                                                                                                                                             |
| Biozol Catalog Number      | ABT-ABG10099-U050                                                                                                                                                                                        |
| Supplier Catalog Number    | ABG10099-U050                                                                                                                                                                                            |
| Alternative Catalog Number | ABT-ABG10099-U050-50UG                                                                                                                                                                                   |
| Manufacturer               | Abcepta                                                                                                                                                                                                  |
| Host                       | Goat                                                                                                                                                                                                     |
| Category                   | Antikörper                                                                                                                                                                                               |
| Application                | ELISA, IHC, WB                                                                                                                                                                                           |
| Species Reactivity         | Human                                                                                                                                                                                                    |
| Clonality                  | Polyclonal                                                                                                                                                                                               |
| Purity                     | Produced from sera of goats pre-immunized with highly pure (>98%) recombinant hFGF-10. Anti-Human FGF-10 specific antibody was purified by affinity chromatography employing immobilized hFGF-10 matrix. |
| Form                       | A sterile filtered antibody solution was lyophilized from PBS, pH 7.2.                                                                                                                                   |
| Antibody Type              | Polyclonal Antibody                                                                                                                                                                                      |

|                   |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |
|-------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Application Notes | <p>WesternBlot: To detect hFGF-10 by Western Blot analysis this antibody can be used at a concentration of 0.1- 0.2 µg/ml. Used in conjunction with compatible secondary reagents the detection limit for recombinant hFGF-10 is 1.5-3.0 ng/lane, under either reducing or non-reducing conditions.. Sandwich: To detect hFGF-10 by sandwich ELISA (using 100 µl/well antibody solution) a concentration of 0.5 - 2.0 µg/ml of this antibody is required. This antigen affinity purified antibody, in conjunction with BioGems Biotinylated Anti-Human FGF-10 (60-139BT) as a detection antibody, allows the detection of at least 0.2 - 0.4 ng/well of recombinant hFGF-10..</p> <p>Immunohistochemistry: This antibody stained formalin-fixed paraffin-embedded sections of human carcinoid tissue. The recommended concentration is 1.0 µg/ml - 2.5 µg/ml with an overnight incubation at 4C. An HRP-labeled polymer detection system was used with a DAB chromogen. Heat induced antigen retrieval with a pH 6.0 sodium citrate buffer is recommended. Optimal concentrations and conditions may vary.. Reconstitution: Centrifuge vial prior to opening. Reconstitute in sterile water to a concentration of 0.1-1.0 mg/ml.</p> |
