### Anti-Murine SF-20 Antibody, Rabbit, Polyclonal ABT-ABG10506-U100

Article Name	Anti-Murine SF-20 Antibody, Rabbit, Polyclonal
Biozol Catalog Number	ABT-ABG10506-U100
Supplier Catalog Number	ABG10506-U100
Alternative Catalog Number	ABT-ABG10506-U100-100UG
Manufacturer	Abcepta
Host	Rabbit
Category	Antikörper
Application	ELISA, WB
Species Reactivity	Mouse
Clonality	Polyclonal
Purity	Produced from sera of rabbits pre-immunized with highly pure (>98%) recombinant mSF-20. Anti-Murine SF-20 specific antibody was purified by affinity chromatography employing immobilized mSF-20 matrix.
Form	A sterile filtered antibody solution was lyophilized from PBS, pH 7.2.
Antibody Type	Polyclonal Antibody

Application Notes

WesternBlot: To detect mSF-20 by Western Blot analysis this antibody can be used at a concentration of 0.1 - 0.2 µg/ml. Used in conjunction with compatible secondary reagents the detection limit for recombinant mSF-20 is 1.5 - 3.0 ng/lane, under either reducing or non-reducing conditions.. Sandwich: To detect mSF-20 by sandwich ELISA (using 100 µl/well antibody solution) a concentration of 0.5 - 2.0 µg/ml of this antibody is required. This antigen affinity purified antibody, in conjunction with BioGems Biotinylated Anti-Murine SF-20 (61-122BT) as a detection antibody, allows the detection of at least 0.2 - 0.4 ng/well of recombinant mSF-20.. Reconstitution: Centrifuge vial prior to opening. Reconstitute in sterile water to a concentration of 0.1-1.0 mg/ml.
