| Category                   | Proteine/Peptide                                                                                            |
| Product Description        | IL-6 (human), (recombinant)...                                                                              |
| Molecular Weight           | ~21kDa                                                                                                      |
| UniProt                    | <a href="#">P05231</a>                                                                                      |
| Source                     | Produced in E. coli. Non-glycosylated protein, containing 184 amino acids.                                  |
| Purity                     | 95% (Reducing and Non-reducing SDS-PAGE)                                                                    |
| Form                       | Lyophilized from a sterile (0.2 micron) filtered aqueous solution containing 10mM sodium phosphate, pH 7.5. |
| Target                     | IL-6                                                                                                        |
