| Species Reactivity         | Human                                                                                                                                                                                                                                                         |
| Immunogen                  | SK-H1A9-2 human hepatocellular carcinoma cells                                                                                                                                                                                                                |
| Product Description        | MAB HSA133 stains human liver canaliculi and a subset of hepatocellular carcinomas. In frozen sections, it stains liver canaliculi strongly and may be used as a marker of this hepatic substructure. Cell preparations of hepatocellular carcinoma biopsi... |
| Clonality                  | Monoclonal                                                                                                                                                                                                                                                    |
| Clone Designation          | [HSA133]                                                                                                                                                                                                                                                      |
| Molecular Weight           | Not Known                                                                                                                                                                                                                                                     |
| Isotype                    | IgG2b                                                                                                                                                                                                                                                         |

|                   |                                                                                                                                                                        |
|-------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| NCBI              | Not Known                                                                                                                                                              |
| Form              | 200ug/ml of Ab Purified from Bioreactor Concentrate by Protein A/G. Prepared in 10mM PBS with 0.05% BSA & 0.05% azide. Also available WITHOUT BSA & azide at 1.0mg/ml. |
| Antibody Type     | Monoclonal Antibody                                                                                                                                                    |
| Application Notes | ELISA (For coating, purchase antibody without BSA), Optimal dilution for a specific application should be determined.                                                  |
