| Category                   | Antikörper                                                                                                                                                                                  |
| Application                | FC, ICC, WB                                                                                                                                                                                 |
| Species Reactivity         | Porcine                                                                                                                                                                                     |
| Immunogen                  | Acid extracts of boar spermatozoa were subjected to hydrophobic chromatography and the pooled fraction with reactivity to N-alpha benzoylarginine-4-nitroanilide was used for immunization. |
| Clonality                  | Monoclonal                                                                                                                                                                                  |
| Concentration              | 1 mg/ml                                                                                                                                                                                     |
| Clone Designation          | [ACR.2]                                                                                                                                                                                     |
| Isotype                    | IgG1                                                                                                                                                                                        |
| Buffer                     | Phosphate buffered saline (PBS) solution with 15 mM sodium azide                                                                                                                            |
