| Manufacturer               | ProSci                                                                                                                                                     |
| Category                   | Proteine/Peptide                                                                                                                                           |
| Molecular Weight           | 32.51 kD                                                                                                                                                   |
| NCBI                       | <a href="#">1522</a>                                                                                                                                       |
| UniProt                    | <a href="#">Q9UBR2</a>                                                                                                                                     |
| Buffer                     | Supplied as a 0.2 um filtered solution of 20mM HAc-NaAc, 150mM NaCl, pH 4.0. It is not recommended to reconstitute to a concentration less than 100 ug/ml. |
| Source                     | Human Cells                                                                                                                                                |
| Purity                     | Greater than 95% as determined by reducing SDS-PAGE.<br />Endotoxin level less than 0.1 ng/ug (1 IEU/ug) as determined by LAL test.                        |
| Form                       | Liquid                                                                                                                                                     |
| Application Notes          | This recombinant protein can be used for biological assays. For research use only.                                                                         |
