| Category                   | Kits/Assays                                                                                                                                                                                                                                                   |
| Species Reactivity         | Human                                                                                                                                                                                                                                                         |
| Product Description        | Human Mannose Phosphate Isomerase (MPI) ELISA Kit for detecting MPI in serum, plasma, tissue homogenates, other biological fluids. Species Reactivity: Human (Homo sapiens). Detection Range: 15.6-1000pg/ml. Sensitivity: 6.7pg/ml. Format: 96-Well Plate... |
| Range                      | 15.6-1000pg/ml                                                                                                                                                                                                                                                |
| Sensitivity                | 6.7pg/ml                                                                                                                                                                                                                                                      |
