| Product Description        | Bovine Cystatin C (Cys-C) ELISA Kit for detecting Cys-C in serum, plasma, tissue homogenates, cell lysates, cell culture supernates, other biological fluids. Species Reactivity: Bovine (Bos taurus). Detection Range: 62.5-4,000pg/ml. Sensitivity: 27.5... |
| Range                      | 62.5-4,000pg/ml                                                                                                                                                                                                                                               |
| Sensitivity                | 27.5pg/ml                                                                                                                                                                                                                                                     |
