| Product Description        | Mouse Chemokine (C-X-C Motif) Ligand 14 (CXCL14) CLIA Kit for detecting C-X-C Motif in serum, plasma, tissue homogenates, cell lysates, other biological fluids. Species Reactivity: Mouse (Mus musculus). Detection Range: 13.7-10,000pg/ml. Sensitivity:... |
| Range                      | 13.7-10,000pg/ml                                                                                                                                                                                                                                              |
| Sensitivity                | 5.5pg/ml                                                                                                                                                                                                                                                      |
