| Application                | ELISA                                                                                                                                                                                    |
| Product Description        | CircuLex High-Sensitivity CRP ELISA Kit...                                                                                                                                               |
| Range                      | Dilution factors need to be taken into consideration in calculating the Human CRP concentration. Results exceeding Human CRP level of 9.5 µg/ml should be repeated with diluted samples. |
| Sensitivity                | better than 28.6 pg/mL of sample.                                                                                                                                                        |
| NCBI                       | <a href="#">1401</a>                                                                                                                                                                     |
| Target                     | CRP                                                                                                                                                                                      |
