| Host                       | Rat                                                            |
| Category                   | Antikörper                                                     |
| Application                | FC                                                             |
| Immunogen                  | KLH                                                            |
| Conjugation                | FITC                                                           |
| Product Description        | Rat IgG2c (isotype control)-FITC, Clone: [6E12], Monoclonal... |
| Clonality                  | Monoclonal                                                     |
| Concentration              | 50 µg/ml                                                       |
| Clone Designation          | [6E12]                                                         |
| Isotype                    | IgG2c                                                          |
| Buffer                     | 50 µg/mL in PBS/1% BSA/0.09% NaN3                              |

|                    |                                                                                                                                                                                                          |
|--------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Source             | This antibody was purified from hybridoma (clone 6E12) supernatant using protein G agarose. This hybridoma was established by fusion of mouse myeloma cell P3U1 with rat lymph nodes immunized with KLH. |
| Target             | IgG2c                                                                                                                                                                                                    |
| Application Dilute | FCM: This antibody can be used as a negative isotypic control. The concentration will depend on condition.                                                                                               |
