## Product Datasheet

### Anti-CD61 (gpIIla) (Mouse) mAb, Clone: [1-55-4], Unconjugated, Rat, Monoclonal MBL-M109-3

|                            |                                                                                |
|----------------------------|--------------------------------------------------------------------------------|
| Article Name               | Anti-CD61 (gpIIla) (Mouse) mAb, Clone: [1-55-4], Unconjugated, Rat, Monoclonal |
| Biozol Catalog Number      | MBL-M109-3                                                                     |
| Supplier Catalog Number    | M109-3                                                                         |
| Alternative Catalog Number | MBL-M109-3                                                                     |
| Manufacturer               | MBL                                                                            |
| Host                       | Rat                                                                            |
| Category                   | Antikörper                                                                     |
| Application                | FC, IP, WB                                                                     |
| Species Reactivity         | Mouse                                                                          |
| Immunogen                  | Mouse thrombocyte                                                              |
| Conjugation                | Unconjugated                                                                   |
| Product Description        | Anti-CD61 (gpIIla) (Mouse) mAb, Clone: [1-55-4], Rat, Monoclonal...            |
| Clonality                  | Monoclonal                                                                     |
| Concentration              | 1 mg/mL                                                                        |
| Clone Designation          | [1-55-4]                                                                       |
| Isotype                    | IgG2a kappa                                                                    |
| NCBI                       | <a href="#">3690</a>                                                           |

|                    |                                                                                                                                                                                                                             |
|--------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Buffer             | 1 mg/mL in PBS/50% glycerol, pH 7.2                                                                                                                                                                                         |
| Source             | This antibody was purified from hybridoma (clone 1-55-4) supernatant using protein G agarose. This hybridoma was established by fusion of mouse myeloma cell P3U1 with Wister rat lymphocyte immunized with mouse platelet. |
| Target             | CD61                                                                                                                                                                                                                        |
| Application Dilute | WB: 1 µg/mL (chemiluminescence detection system). IP: 10 µg/200 µL of cell extract from 5 x 10 <sup>6</sup> cells. FCM: 10 µg/mL (final concentration)                                                                      |
