| Category                   | Proteine/Peptide                                                                                                                                                                                              |
| Species Reactivity         | Human                                                                                                                                                                                                         |
| Immunogen                  | Ser2-Asp394                                                                                                                                                                                                   |
| Product Description        | Recombinant Human EBP1 Protein is produced by E.coli expression system. The target protein is expressed with sequence (Ser2-Asp394) of human EBP1 (Accession Q9UQ80) fused with His tag at the N-terminus.... |
| Concentration              | Please contact us for more information.                                                                                                                                                                       |
| Molecular Weight           | 45.2 kDa                                                                                                                                                                                                      |
| Tag                        | N-His                                                                                                                                                                                                         |

|--------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Purity             | 95 % as determined by SDS-PAGE.                                                                                                                                                                                                                                                |
| Form               | Lyophilized from sterile 20 mM Tris, 0.5 M NaCl, pH 8.0. Please contact us for any concerns or special requirements. Normally 5 % - 8 % trehalose, mannitol and 0.01% Tween80 are added as protectants before lyophilization.                                                  |
