| Immunogen                  | K562 and FcγRII L cells                                                                                                                                                                                                                                       |
| Conjugation                | CF405S                                                                                                                                                                                                                                                        |
| Product Description        | This MAb reacts with a CD32 (FcγRII) epitope distinct from that defined by MAb 8.26 and the epitope overlaps with that of MAb 7.30 (cluster 4). It displays a stronger reaction with Daudi than with U937 cells. The epitope is located in domain 2 of Fcγ... |
| Clonality                  | Monoclonal                                                                                                                                                                                                                                                    |
| Concentration              | 0.1 mg/mL                                                                                                                                                                                                                                                     |
| Clone Designation          | [8.7]                                                                                                                                                                                                                                                         |
| Molecular Weight           | 40 kDa                                                                                                                                                                                                                                                        |

|                   |                                                                                                                                                                                                                                                                                                       |
