| Species Reactivity         | Human                                                                                                                                                                                                                                                         |
| Immunogen                  | Recombinant human MMP9 protein fragment (around aa 22-166) (exact sequence is proprietary)                                                                                                                                                                    |
| Conjugation                | CF640R                                                                                                                                                                                                                                                        |
| Product Description        | The matrix metalloproteinases (MMP) are a family of peptidase enzymes responsible for the degradation of extracellular matrix components, including collagen, gelatin, fibronectin, laminin and proteoglycan. Transcription of MMP genes is differentially... |
| Clonality                  | Monoclonal                                                                                                                                                                                                                                                    |
| Concentration              | 0.1 mg/mL                                                                                                                                                                                                                                                     |
| Clone Designation          | [MMP9/2477]                                                                                                                                                                                                                                                   |
