| Immunogen                  | Nuclei of human leukemia biopsy cells                                                                                                                                                                                                                         |
| Product Description        | Please note that this antibody is a recombinant Rabbit version of original anti-histone H1 antibody (Clone AE-4). Because the variable heavy (VH) and variable light (VL) domains are the same, recombinant antibody has the same exact reactivity as the ... |
| Clonality                  | Monoclonal                                                                                                                                                                                                                                                    |
| Concentration              | 0.2 mg/mL                                                                                                                                                                                                                                                     |
| Clone Designation          | [AE-4]                                                                                                                                                                                                                                                        |
| Molecular Weight           | ~30 kDa                                                                                                                                                                                                                                                       |
