| Product Description        | The Phospho-NF-kappaBp65(Ser311) Colorimetric Cell-Based ELISA Kit is a convenient, lysate-free, high throughput and sensitive assay kit that can detect Phospho-NF-kappaBp65(Ser311) protein expression profile in cells. The kit can be used for measuri... |
| Range                      | At least 5000 cells/well                                                                                                                                                                                                                                      |
