| Product Description        | The KOR-1 (Phospho-Ser369) Colorimetric Cell-Based ELISA Kit is a convenient, lysate-free, high throughput and sensitive assay kit that can detect KOR-1 (Phospho-Ser369) protein expression profile in cells. The kit can be used for measuring the relat... |
| Range                      | At least 5000 cells/well                                                                                                                                                                                                                                      |
