| Immunogen                  | Synthesized peptide derived from human protein.AA range:171-184                                                                                                                                                                                                |
| Product Description        | The protein encoded by this gene is primarily found in the nucleolus, where it can bind to the 5' UTR of the insulin-like growth factor II leader 3 mRNA and may repress translation of insulin-like growth factor II during late development. The encoded ... |
