| Product Description        | glyceraldehyde-3-phosphate dehydrogenase(GAPDH) Homo sapiens<br>This gene encodes a member of the glyceraldehyde-3-phosphate dehydrogenase protein family. The encoded protein has been identified as a moonlighting protein based on its ability to perform ... |
| Clonality                  | Monoclonal                                                                                                                                                                                                                                                       |
| UniProt                    | <a href="#">P04406</a>                                                                                                                                                                                                                                           |
| Source                     | Monoclonal, Mouse IgG1                                                                                                                                                                                                                                           |
| Purity                     | The antibody was affinity-purified from mouse ascites by affinity-chromatography using specific immunogen.                                                                                                                                                       |

|                    |                                                                                                                                                      |
|--------------------|------------------------------------------------------------------------------------------------------------------------------------------------------|
| Form               | Liquid in PBS, pH 7.4, containing 0.02% sodium azide as preservative and 50% Glycerol.                                                               |
| Application Dilute | Optimal working dilutions should be determined experimentally by the investigator. Suggested starting dilutions are as follows: IHC 1:200, IF 1:200. |
