| Immunogen                  | Synthesized peptide derived from human Stathmin AA range: 1-100                                                                                                                                                                                               |
| Product Description        | This gene belongs to the stathmin family of genes. It encodes a ubiquitous cytosolic phosphoprotein proposed to function as an intracellular relay integrating regulatory signals of the cellular environment. The encoded protein is involved in the regu... |
