| Product Description        | Rat ATPB ELISA Kit is a sandwich Enzyme-Linked Immunosorbent Assay (sELISA) designed for the in vitro quantitative determination of rat ATPB in serum, plasma, tissue homogenates, and other biological fluids.... |
| Range                      | 31.25-2000 pg/ml                                                                                                                                                                                                   |
| Sensitivity                | 18.75 pg/ml                                                                                                                                                                                                        |
| Samples                    | Serum, plasma, tissue homogenates, and other biological fluids.                                                                                                                                                    |
| Target                     | ATPB                                                                                                                                                                                                               |
