| Product Description        | Rat AKT1 ELISA Kit is a sandwich Enzyme-Linked Immunosorbent Assay (sELISA) designed for the in vitro quantitative determination of rat AKT1 in serum, plasma, tissue homogenates, and other biological fluids.... |
| Range                      | 0.156-10 ng/ml                                                                                                                                                                                                     |
| Sensitivity                | 0.094 ng/ml                                                                                                                                                                                                        |
| Samples                    | Serum, plasma, tissue homogenates, and other biological fluids.                                                                                                                                                    |
| Target                     | AKT1                                                                                                                                                                                                               |
