| Species Reactivity         | Rat                                                                                                                                                                                                                        |
| Product Description        | Rat KGF/FGF7 ELISA Kit is a sandwich Enzyme-Linked Immunosorbent Assay (sELISA) designed for the in vitro quantitative determination of rat KGF/FGF7 in serum, plasma, tissue homogenates, and other biological fluids.... |
| Range                      | 15.625-1000 pg/ml                                                                                                                                                                                                          |
| Sensitivity                | 9.375 pg/ml                                                                                                                                                                                                                |
| Samples                    | Serum, plasma, tissue homogenates, and other biological fluids.                                                                                                                                                            |
| Target                     | KGF/FGF7                                                                                                                                                                                                                   |
