| Species Reactivity         | Rat                                                                                                                                                                                                                                             |
| Product Description        | Rat Free Thyroxine/T4 ELISA Kit is a competitive Enzyme-Linked Immunosorbent Assay (cELISA) designed for the in vitro quantitative determination of rat Free Thyroxine/T4 in serum, plasma, tissue homogenates, and other biological fluids.... |
| Range                      | 1.563-100 pg/ml                                                                                                                                                                                                                                 |
| Sensitivity                | 0.938 pg/ml                                                                                                                                                                                                                                     |
| Samples                    | Serum, plasma, tissue homogenates, and other biological fluids.                                                                                                                                                                                 |
| Target                     | Free Thyroxine/T4                                                                                                                                                                                                                               |
