| Product Description        | Rat GDNF ELISA Kit is a sandwich Enzyme-Linked Immunosorbent Assay (sELISA) designed for the in vitro quantitative determination of rat GDNF in serum, plasma, tissue homogenates, and other biological fluids.... |
| Range                      | 4.688-300 pg/ml                                                                                                                                                                                                    |
| Sensitivity                | 2.813 pg/ml                                                                                                                                                                                                        |
| Samples                    | Serum, plasma, tissue homogenates, and other biological fluids.                                                                                                                                                    |
| Target                     | GDNF                                                                                                                                                                                                               |
