| Category                   | Kits/Assays                                                                                                                                                                                                                                                    |
| Species Reactivity         | Rabbit                                                                                                                                                                                                                                                         |
| Product Description        | This GENLISA Rabbit Heat Shock Protein 27 (Hsp27) ELISA includes features like: - Ready to use protocol with break-apart wells for ease of use - Standardisation and High Reproducibility - Lot to Lot Consistency - Accuracy and Precision Validated again... |
| Range                      | 0.78 - 50 ng/ml                                                                                                                                                                                                                                                |
| Sensitivity                | 0.30 ng/ml                                                                                                                                                                                                                                                     |
| Samples                    | Serum, plasma and tissue homogenates. For other matrices, please connect with our technical team                                                                                                                                                               |
