| Category                   | Biochemikalien                                                                                      |
| Product Description        | 2,4,6-Tribromophenyl caproate (2,4,6-tribromophenyl caproic acid ester) is an anti-fungal agent.... |
| Molecular Weight           | 428.94                                                                                              |
| Purity                     | 98.29                                                                                               |
| CAS Number                 | [16732-09-5]                                                                                        |
| Formula                    | C12H13Br3O2                                                                                         |
| Target                     | Fungal                                                                                              |
| Application Notes          | MCE Product type: Reference compound                                                                |
