| Manufacturer               | MedchemExpress                                                                                                                          |
| Category                   | Biochemikalien                                                                                                                          |
| Product Description        | Boc-MLF is a formyl peptide receptor (FPR) antagonist, and reduces superoxide production induced by fMLF with an IC50 of 0.63 µM[1].... |
| Molecular Weight           | 509.66                                                                                                                                  |
| Purity                     | 99.36                                                                                                                                   |
| CAS Number                 | [67247-12-5]                                                                                                                            |
| Formula                    | C25H39N3O6S                                                                                                                             |
| Target                     | Formyl Peptide Receptor (FPR)                                                                                                           |
| Application Notes          | MCE Product type: Reference compound                                                                                                    |
