| Category                   | Biochemikalien                                                                                       |
| Product Description        | 3-Iodothyronamine-d4 (hydrochloride) is the deuterium labeled 3-Iodothyronamine hydrochloride[1].... |
| Molecular Weight           | 395.66                                                                                               |
| Purity                     | 99.26                                                                                                |
| CAS Number                 | [884320-54-1]                                                                                        |
| Formula                    | C14H11D4ClINO2                                                                                       |
| Target                     | Isotope-Labeled Compounds                                                                            |
| Application Notes          | MCE Product type: Isotope-Labeled Compounds                                                          |
