| Product Description        | 2'-Deoxy-8-(methylthio)adenosine is a purine nucleoside analog. Purine nucleoside analogs have broad antitumor activity targeting indolent lymphoid malignancies. Anticancer mechanisms in this process rely on inhibition of DNA synthesis, induction of ... |
| Molecular Weight           | 295.36                                                                                                                                                                                                                                                        |
