| Product Description        | hsa-miR-219a-2-3p inhibitors are chemically-modified oligonucleotides that hybridize with mature miRNAs. The miRNA inhibitors have full-length nucleotide 2-methoxy modification. The miRNA inhibitors strongly compete with mature miRNAs to prevent the ... |
| Molecular Weight           | 6614.43                                                                                                                                                                                                                                                       |
| Target                     | MicroRNA                                                                                                                                                                                                                                                      |
| Application Notes          | MCE Product type: Oligonucleotides                                                                                                                                                                                                                            |
