| Category                   | Antikörper                                                                                                                                                                              |
| Application                | ELISA, FA, FACS, Kinetics                                                                                                                                                               |
| Species Reactivity         | Human                                                                                                                                                                                   |
| Product Description        | Anti-SLC34A2 Reference Antibody (upifitamab)(CHB106) is expressed from CHO. The heavy chain type is hulgG1, and the light chain type is hukappa. It has a predicted MW of 145.5 kDa.... |
| Clonality                  | Monoclonal                                                                                                                                                                              |
| Concentration              | 1mg/ml                                                                                                                                                                                  |
| Isotype                    | IgG1                                                                                                                                                                                    |
| UniProt                    | <a href="#">O95436</a>                                                                                                                                                                  |
| Buffer                     | 25mM histidine, 8% sucrose, 0.01% Tween80 pH6.2                                                                                                                                         |
