## Product Datasheet

**Recombinant Mouse CCL8/MCP-2 Protein (His Tag)**  
**ELA-PKSM040983**

|                            |                                                                                                                                                                                                                                                                  |

| Expression System          | HEK293 Cells                                                                                                                                                                                                                                                     |
| Purity                     | > 95 % as determined by reducing SDS-PAGE.                                                                                                                                                                                                                       |
| Form                       | Lyophilized from a 0.2 µm filtered solution of 20mM NaAc-HAc, 150mM NaCl, pH 4.0. Normally 5% - 8% trehalose, mannitol and 0.01% Tween 80 are added as protectants before lyophilization. Please refer to the specific buffer information in the printed manual. |
| Sequence                   | Glu20-Pro97                                                                                                                                                                                                                                                      |
| Target                     | CCL8,MCP-2                                                                                                                                                                                                                                                       |
