| Manufacturer               | Abmole Bioscience                                                                                                                                                                                  |
| Category                   | Biochemikalien                                                                                                                                                                                     |
| Product Description        | IWR-1 (endo-IWR 1) is a Wnt pathway inhibitor with IC50 of 180 nM, induces Axin2 protein levels and promotes beta-catenin phosphorylation by stabilizing Axin-scaffolded destruction complexes.... |
| Molecular Weight           | 409.44                                                                                                                                                                                             |
| Purity                     | 100.00%                                                                                                                                                                                            |
| CAS Number                 | [1127442-82-3]                                                                                                                                                                                     |
| Formula                    | C25H19N3O3                                                                                                                                                                                         |
| Target                     | Wnt/beta-catenin                                                                                                                                                                                   |
