| Manufacturer               | Abmole Bioscience                                                                                              |
| Category                   | Biochemikalien                                                                                                 |
| Product Description        | L-Leucinol ((+)-Leucinol) is a potent, competitive leucine aminopeptidase inhibitor with Ki value of 17 µM.... |
| Molecular Weight           | 117.19                                                                                                         |
| Purity                     | 99.0%                                                                                                          |
| CAS Number                 | [7533-40-6]                                                                                                    |
| Formula                    | C6H15NO                                                                                                        |
| Target                     | Aminopeptidase                                                                                                 |
