| Category                   | Molekularbiologie                                                                                                                                                                                                                                             |
| Product Description        | LNP Trailblazer Kits are designed for quick assembly and assessment of RNA-LNPs in biological systems. Each kit includes a buffer for preparation of RNA cargo and the necessary lipids to form lipid nanoparticles. Once formed, RNA-LNPs are stable in n... |
| Application Notes          | Categories: Bioassays & Kits. Related: Ionizable/Cationic Lipids. Ship 1 : Storage. Ship 2: 4 AC or below                                                                                                                                                     |
