| Category                   | Kits/Assays                                                                                                                                                                                                                                                         |
| Species Reactivity         | Human                                                                                                                                                                                                                                                               |
| Product Description        | The GENLISA Human NADH Dehydrogenase [ubiquinone] Iron-Sulfur Protein 8, Mitochondrial (NDUFS8) ELISA includes features like:<br>Ready to use protocol with break-apart wells for ease of use<br>Standardisation and High Reproducibility Lot to Lot Consistency... |
| Range                      | 0.315 - 20 ng/ml                                                                                                                                                                                                                                                    |
| Sensitivity                | 0.15 ng/ml                                                                                                                                                                                                                                                          |
| Samples                    | Serum, plasma, tissue homogenates, cell lysates, cell culture supernates and other biological fluids. For tear samples, please connect with us to discuss further.                                                                                                  |
| Application Notes          | Colorimetric, Absorbance measured at 450nm                                                                                                                                                                                                                          |
