| Article Name               | InVivoMAb anti-human pan-Glypican, Clone: [HS20], Human, Monoclonal                                                                          |
| Biozol Catalog Number      | BXC-BE0412-INDUSTRIAL                                                                                                                        |
| Supplier Catalog Number    | BE0412                                                                                                                                       |
| Alternative Catalog Number | BXC-BE0412-1MG,BXC-BE0412-5MG,BXC-BE0412-25MG,BXC-BE0412-50MG,BXC-BE0412-100MG                                                               |
| Manufacturer               | Bio X Cell                                                                                                                                   |
| Host                       | Human                                                                                                                                        |
| Category                   | Antikörper                                                                                                                                   |
| Immunogen                  | Not available or unknown                                                                                                                     |
| Clonality                  | Monoclonal                                                                                                                                   |
| Concentration              | Lot specific,typically between 4-11 mg/ml                                                                                                    |
| Clone Designation          | [HS20]                                                                                                                                       |
| Molecular Weight           | 150 kDa                                                                                                                                      |
| Pubmed                     | < <a href="https://pubmed.ncbi.nlm.nih.gov/24492943">a href=https://pubmed.ncbi.nlm.nih.gov/24492943</a> target=_blank rel=nofollow>24492943 |
| Buffer                     | PBS, pH 7.0, Contains no stabilizers or preservatives                                                                                        |
| Purity                     | 95% , Determined by SDS-PAGE                                                                                                                 |
| Form                       | Liquid                                                                                                                                       |

|                   |                                                                                                                                      |
|-------------------|--------------------------------------------------------------------------------------------------------------------------------------|
| Formula           | PBS, pH 7.0, Contains no stabilizers or preservatives                                                                                |
| Target            | GPC3                                                                                                                                 |
| Application Notes | in vivo blocking of Wnt signaling, in vitro blocking of Wnt signaling, Functional assays, ELISA, Flow cytometry, Immunoprecipitation |
