## Product Datasheet

### **InVivoMAb anti-mouse CXCL10 (IP-10), Clone: [1F11], Hamster, Monoclonal BXC-BE0440-INDUSTRIAL**

|                            |                                                                                      |
|----------------------------|--------------------------------------------------------------------------------------|
| Article Name               | InVivoMAb anti-mouse CXCL10 (IP-10), Clone: [1F11], Hamster, Monoclonal              |
| Biozol Catalog Number      | BXC-BE0440-INDUSTRIAL                                                                |
| Supplier Catalog Number    | BE0440                                                                               |
| Alternative Catalog Number | BXC-BE0440-1MG,BXC-BE0440-5MG,BXC-BE0440-25MG,BXC-BE0440-50MG,BXC-BE0440-100MG       |
| Manufacturer               | Bio X Cell                                                                           |
| Host                       | Hamster                                                                              |
| Category                   | Antikörper                                                                           |
| Species Reactivity         | Mouse                                                                                |
| Immunogen                  | Recombinant E. coli-produced murine IP-10                                            |
| Clonality                  | Monoclonal                                                                           |
| Concentration              | Lot specific,typically between 4-11 mg/ml                                            |
| Clone Designation          | [1F11]                                                                               |
| Molecular Weight           | 150 kDa                                                                              |
| Pubmed                     | <a href=https://pubmed.ncbi.nlm.nih.gov/10843381 target=_blank rel=nofollow>10843381 |
| Buffer                     | PBS, pH 6.0 with 0.01% TWEEN 80, Contains no stabilizers or preservatives            |

|                   |                                                                                                                                                       |
|-------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------|
| Purity            | 95% , Determined by SDS-PAGE                                                                                                                          |
| Form              | Liquid                                                                                                                                                |
| Formula           | PBS, pH 7.0, Contains no stabilizers or preservatives                                                                                                 |
| Target            | CXCL10                                                                                                                                                |
| Application Notes | in vitro neutralization of CXCL10, in vivo neutralization of CXCL10, in vivo inhibition of T cell recruitment, Functional assays, ELISA, Western blot |
